This volume provides a cross-cutting analysis of the policy challenges related to GCC labor markets. It analyzes the different dimensions of segmentation of these markets, factors of change influencing labor supply such as trends in education and demography, as well as the impact of potential future reforms in areas such as immigration policy, labor sponsorship, taxation and minimum wages. The work therefore provides an overview of what arguably will be the core socio-economic challenge for the GCC in the coming years.

Series

Gulf Studies

Key Subjects

Gulf Studies, Middle Eastern Studies,
Economics, Politics

Markets

Policy Makers
Multinationals
University and Faculty Libraries
