The Qur'an Revealed is a landmark publication in the history of Islamic studies, providing for the first time a comprehensive critical analysis of Bediüzzaman Said Nursi's 6000-page work of Quranic exegesis,

The Epistles of Light. In discussing a wide range of themes, from Divine unity to causation, from love to spirituality, from prophethood to civilization and politics, Colin Turner invites the reader into Nursi's conceptual universe, presenting the teachings of arguably the Muslim world's most understudied theologian in a language that is accessible to both expert and interested layperson alike.

A remarkable and outstanding study. It will be the definitive text on Said Nursi for decades to come.
